CAREER OVERVIEW

Training

Oct-2023 to present

Front End Developer at NironTech.

- *Developed and maintained web applications using Angular, ensuring high performance and responsiveness.*
- *Collaborated with back-end developers and designers to implement and improve features.*
- *Conducted code reviews and provided feedback to improve code quality and maintainability.*
- *Utilized version control systems like Git for project management and code sharing.*
- *Familiar with React for potential future projects and integration.*
- *Experience with Jenkins for CI/CD pipelines and deployment automation.*
- *Worked with Microsoft App Services for application hosting and cloud integration.*

OBJECTIVE

To work in a challenging and dynamic environment, utilizing my expertise in front-end development with Angular and familiarity with React, Node.js, MongoDB, and Django, to contribute to the success of NironTech.
